

RLY02 Reed Relay Module

JP4

Connect to the Comfort Outputs . The “o” symbol common terminal between two terminals is +12V, and is connected to the Output commons.O1 to O8 are are connected to Comfort outputs

JP2 - JP3

These are Normally Open contacts marked C1-N1 to C8-N8

K1 - K8

These are reed relays with Coil resistance 1 kilohm (12 mA). Contact current max 500 mA, Max voltage 30V

DL1-DL8

These are LED indicators which turn on when the corresponding relay K1 to K8 are activated (Contact Closed)

Dimensions

Length = 88 mm

Width = 53 mm

Height = 15 mm
